Hey,

The price has been hovering between \$13.20 and \$13.42 past 7 days.

Prices usually dip on weekends.

How much did you want to buy?

We can buy small amounts (3k, 5k, 2k, ect.) spread across the other exchanges at \$13.10 over the course of 3 days it should get you a better average price

I want to pick up some more coins. Would the next few days be good time to buy with holiday slow-down? If so I can wire money tomorrow morning.
